

## Business Application - Innovative Industries Internship

The Business Application allows the Colorado Department of Labor and Employment (CDLE) to collect general information for the Innovative Industries Internship Program. All applications will be reviewed to determine initial eligibility.

If the application is approved the intern you select will need to complete the Intern Application and meet all intern specific eligibility requirements. For a complete list of business and intern eligibility requirements, contact the Innovative Industries Internship Coordinator at [cdle\\_iii@state.co.us](mailto:cdle_iii@state.co.us).

Business and Intern approvals are contingent on available funding.

For questions about the Innovative Industries Internships Program contact:
